Drinks in the Coworking Space: Challenges

- Beverage billing is often done with pen and paper:
High susceptibility to errors and possible misuse
- **Complicated processes** due to several different media
- **Large manual effort:** Unnecessary waste of resources, e.g. by chasing invoices
- **No overview** of costs, inventories and usage behavior

The solution: MobiFresh

- Users pay for drinks via tablets:
Process is digitized, susceptibility to errors eliminated
- **One medium** for all coworkers
- Manual effort is eliminated through automation
- **Usage behavior** can be analyzed, warning when stocks are low

The solution: MobiFresh

Our recommendation: MobiFresh in the bundle

MobiFresh is integrated on your devices with the help of MobiVisor MDM (Mobile Device Management).

Centrally secured

Screen only contains the apps that are permitted according to the privacy policy.

Single-App/KIOSK-Mode

The user interface of the device is limited to a few apps and thus simplified.

Your advantages with MobiFresh

Save time and cost

Don't lose unnecessary time and resources.

Keep an overview

Practical dashboards give you an overview of all figures at all times.

Avoid mistakes

Trust is good, control is better.

No manual effort

Tally sheets and the like are a thing of the past!

Adjust price lists flexible

Add or adjust prices, users and companies at any time.

Individual software

Whether branding, features or design: we can customize everything for you!

Real added value with MobiFresh

“

I see the added value of the app on the one hand for our customers, because it enables transparency in billing and flexibility, as we use the app in all our locations. On the other hand, we benefit because we save working time and avoid billing errors. The dashboard also gives us a good overview of our income, which makes our controlling department happy.
