

MobiTime

Working time tracking,
documentation and calculation
powered by IOTIQ GmbH

Working time tracking, documentation and calculation: challenges

- **Systematic time tracking is required by law**
- Manual time tracking is **time-consuming** and **error-prone**
- **Administration of multiple teams and locations** is complex
- **Misleading communication** between employees and managers
- **Time-consuming tracking** of administrative documents, **inefficient documentation processes**

The solution: MobiTime

- **Digital time tracking of jobs** in just a few steps in the MobiTime app: no data loss, no errors
- **Save time and increase efficiency** when entering and reading out data
- **Central platform** for easy management of plans, employees and routes
- **Streamlined communication channels** between employees and managers
- **GDPR-compliant** data transfer, protection against data loss

The solution: MobiTime

1

Record travel time

2

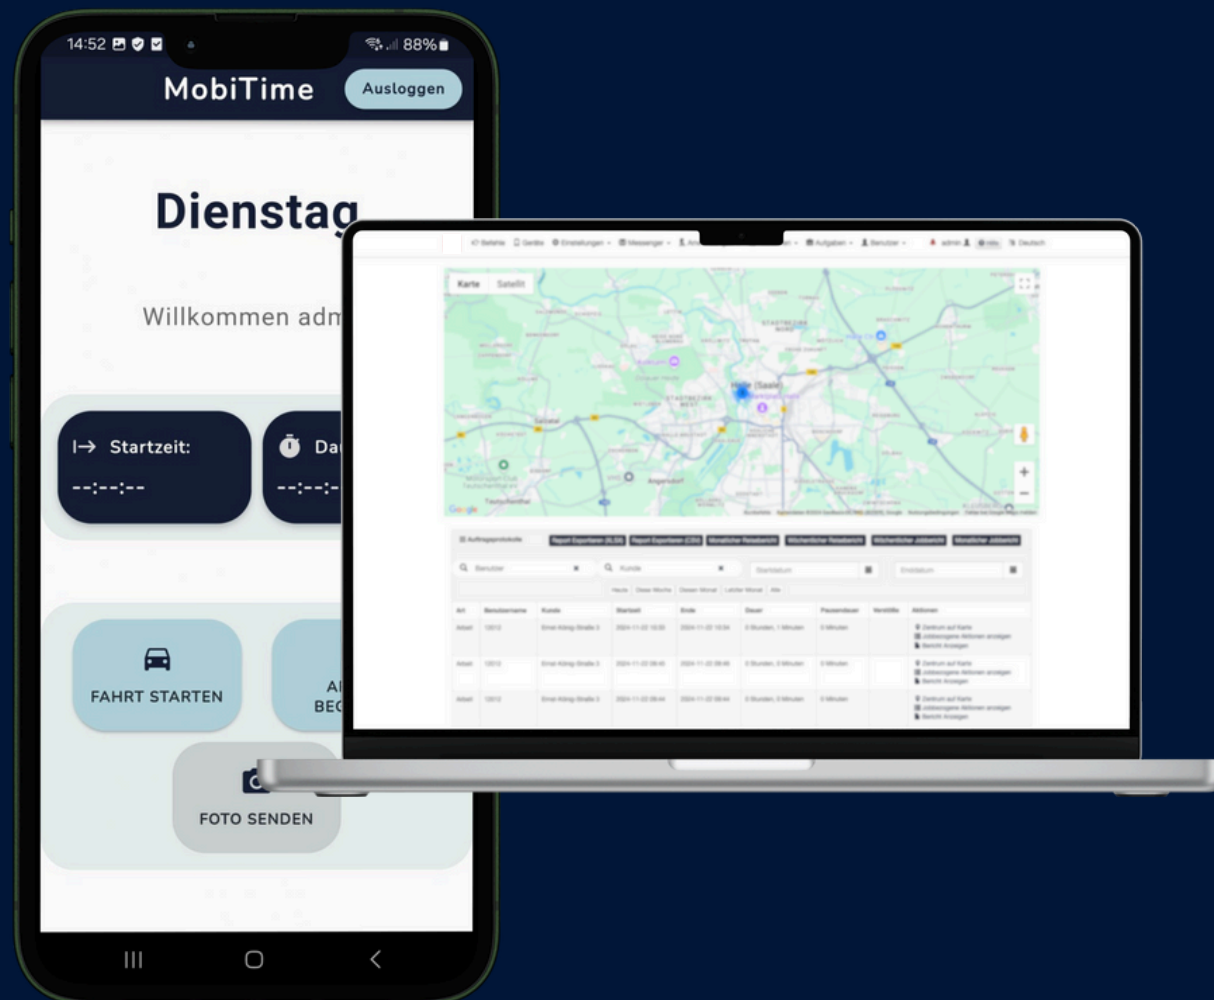

Document the job

3

Automated evaluation

How it works: app and web portal

MobiTime is managed via a web portal and documented in an app. Admins have an overview of both at all times.

Mobile App

Documentation of jobs in just a few steps

Web portal

Administration via web domain

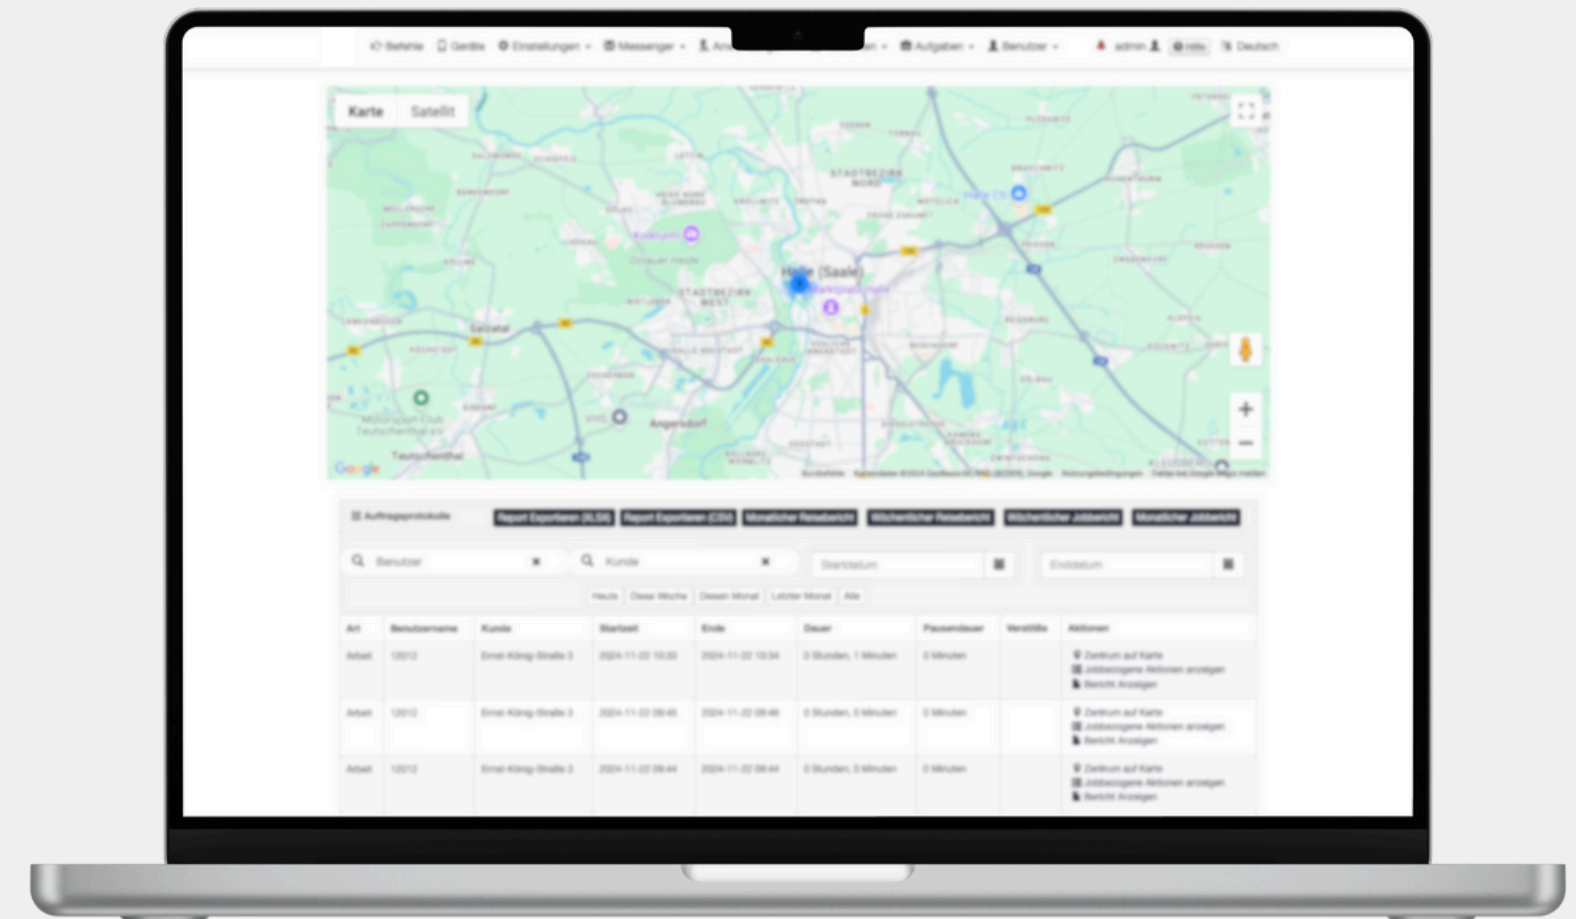

The MobiTime App

- ✓ Start and stop jobs with just a click
- ✓ Photos and confirmation signature in the report
- ✓ Real-time data transmission
- ✓ Supports dynamic work and time schedules
- ✓ Job can be fully documented in just a few steps

The MobiTime web portal

- ✓ View, export, filter and evaluate work logs
- ✓ Create and manage customer and order database
- ✓ Forgery-proof working time recording
- ✓ Availability of employees for efficient resource planning

Our recommendation: **MobiTime** in a bundle

For the protection of your devices: MobiVisor MDM (Mobile Device Management) can supplement MobiTime on your devices.

MobiTime

Facilitation of working time tracking, documentation and -accounting-abrechnung

MobiVisor MDM

Simplify the management of your mobile devices

Your advantages with MobiTime
